Deployment: Github, Heroku

Firebase.IO

MVC Architectural Pattern

Responsive Design

Jira

Experience

Student UT Coding Bootcamp, Austin, TX | Mar 2017 - May 2017

- Managed team projects with **git** version control
- Created a **responsive** web and mobile-friendly app with **Materialize**, **jQuery**, and front-end dynamic animations for a smooth, modern user experience

Furever: serenanguyen.github.io/furever/

Repo: github.com/serenanguyen/furever

- Used **MySQL**, **Node.js**, **Handlebars.js** to build a dynamic web app that updates a SQL database when a user creates an account using server-side authentication

Hunt and Gather: huntandgather.herokuapp.com

Repo: github.com/serenanguyen/project2

Operations Coordinator Mutual Mobile, Austin, TX | Jan 2016 - Mar 2017

- Maintained office operations by managing timesheets, filing client invoices, performing PTO audits, organizing client on-sites, meet-ups, and monthly company-wide town halls, and reviewing facility budget
- Having a support role at a tech company allowed me to see all stages of the development for dynamic web projects
 - QA Training: Learned how to automate and document tests from existing test cases in Python

Volunteer

Technical Mentor

Coding4TX, Austin, TX May 2017

Worked with 10th graders to support their coding and development efforts using **HTML**, **CSS**, **Javascript** to build an app that promotes students pursuing higher education

Assistant Austin Area Wildlife Rehab, Austin, TX | Jun 2015 - current
Care for injured or orphaned wildlife until they can be released or trained for educational programs

Wish Granter Make-A-Wish, Austin, TX | Dec 2014 - current
Facilitate meetings with Wish children to plan their wish

Education

B.S. Biology The University of Texas at Austin | Aug 2011 - Dec 2014
